Internal controls for the public sector continues to exist in a world with continuously evolving technology and increased scrutiny. Without the proper internal controls in place, your organization risks the leaking of sensitive information and becoming the victims of fraud. Join us to stay up to date and make sure that your organization's internal controls are properly vetted.

Stay up-to-date with topics such as:

- Reacting to Covid-19 in internal controls over financial reporting
- Payment system risk management
- How data analytics can work for you
- Strengthening your organization's cybersecurity and protecting yourselves from cyber-fraud
- Case studies from various public sector organizations
- Effective policy frameworks and development
- Implementing risk management frameworks
- How can new, emerging technologies play a role in more effective internal controls?
- Examining the role of the board of directors and how they can play a part in implementing and practicing effective internal control processes
- How has ICFM evolved in the public sector?
- How can we improve on existing practices to make them even more effective?
- Planning for the future with internal controls milestones and monitoring methods
