

October 1 - 2, 2020 • Virtual Course

Make your data work best for you!

Data Governance for the Public Sector

Learn how to address and improve your organization's information quality!

YOUR FACULTY CONFIRMED PARTICIPANTS INCLUDE:

Alex Fourie
DataGovernix Ltd.

Sorana Ionescu
**Independent
Electricity System
Operator**

Matthew MacNeil
**CIO Strategy
Council**

Wojciech Kujawa
City of Edmonton

Mark Roboff
DXC Technology

... and more

Data is more than just numbers and letters. Increasingly so, data is becoming more personalized and useful, evolving everyday to not only meet our needs, but create possibilities that we never could have fathomed before. But with new possibilities comes new problems. Get the latest in developments regarding data governance for the public sector. Stay current and prepare yourself for the evolving digital world of data governance.

Get expert advice and case studies on:

- Developing the human aspect of data
- Understand the how various data roles can affect effective data strategies
- What are some effective data strategies?
- Modern concerns regarding data ethics and privacy; why should we care?
- How to balance the need between accessible data and data privacy
- How data can be used to ease our everyday lives
- What does the future of open data look like for the public sector moving forward?

Data Governance for the Public Sector

October 1 - 2, 2020 • Virtual Course

DAY ONE PROGRAM AGENDA: THURSDAY, OCTOBER 1, 2020

10:00 - 10:10 EDT

Welcome and Opening Remarks from the Chairs

Graham Smith, Founder, Chief Data Strategist, DataGovernix Ltd.

Alex Fourie, Data Governance Analyst, DataGovernix Ltd.

10:10 - 11:10 EDT

Data Literacy: Building the Case for an Enterprise Data Literacy Program

Emily Tregunno, Advisor, Data Governance, Data Governance Office, Canada Post

Emily Kozinski, Advisor, Data Governance, Data Governance Office, Canada Post

- Defining Data Literacy – waiting through the pitches, the marketing material, and the academic studies
- Framing an abstract concept into a practical program
- Gaining interest and attention
- Forming partnerships
- Gaining momentum through routine

11:10 - 11:30 EDT Break

11:30 - 12:30 EDT

Developing Data Strategies: A Holistic Approach to Data

Philippe Johnston, Director General, Digital Services Directorate, Transport Canada

- A look at Transport Canada's approach to data governance
- Developing data strategies and using holistic methods to assess the effectiveness of those strategies
- Data Service Desks; developing and using tools to strengthen data governance initiatives
- Improving the quality of data and establishing consistent verification standards

12:30 - 13:30 EDT Break

13:30 - 14:30 EDT

Failure to Launch: Top Reasons why Data Governance Efforts Fail

Graham Smith, Founder, Chief Data Strategist, DataGovernix Ltd.

Alex Fourie, Data Governance Analyst, DataGovernix Ltd.

DAY ONE PROGRAM AGENDA: THURSDAY, OCTOBER 1, 2020

14:30 - 15:30 EDT

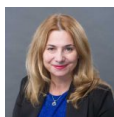

Complying with Treasury Board Guidelines in Practice: The Other Side of the Data Management Coin

Sherin V Emmanuel, Enterprise Information Architect & Strategist | Information Management Division, Information and Data Directorate / Service, Innovation and Integration Branch, Canada Revenue Agency | Government of Canada

- Initiating data management and data processes towards complying with the Treasury Board's Guidelines on Data
- Developing better ways of not only analyzing data, but data collection as well
- Building data management and metadata frameworks
- What are some other ways we can view data? How can we think outside the box to develop more effective data management and management processes?
- Using data governance principles to tie everything together

15:30 - 15:45 EDT Break

15:45 - 16:45 EDT

IESO's Data Excellence Program

Sorana Ionescu, Director, Smart Metering, Independent Electricity System Operator

The electricity sector, the world's biggest data machine, is at a technological tipping point, immersed in today's complex systems, technologies and devices. Clear data strategies will help all sector players maintain their relevance in the face of the challenges and opportunities brought by the massive global digitalization movement, now even more accelerated by the pandemic pressures. To meet these unprecedented demands, the IESO has initiated a Data Excellence program focused on good data governance, a modern enterprise architecture and a sustainable operating model for the future. This presentation will inspire you to reflect on the following topics, and more:

- Why is it important to prioritize data strategy programs in our organizations?
- How to build and implement a data strategy roadmap for our organizations?
- How to determine the optimum Data Governance framework and take the theory into practice with an effective implementation plan
- Some "Do's and Don'ts" ...

16:45 EDT

Closing Remarks from the Chairs

Graham Smith, Founder, Chief Data Strategist, DataGovernix Ltd.

Alex Fourie, Data Governance Analyst, DataGovernix Ltd.

Data Governance for the Public Sector

October 1 - 2, 2020 • Virtual Course

Martin McGarry, Partner and Chief Data Scientist, Bronson Analytics

- A focus on the main users of data: the end consumer
- How can we change the way we view data governance to focus on those that need it most?
- How data governance is viewed currently and difficulties that view can create
- How can effective data governance make data easier to access and verify for consumers?

DAY TWO PROGRAM AGENDA: FRIDAY, OCTOBER 2, 2020

14:30 - 15:30 EDT

3 Must-Have Artifacts for the Data Driven Organization

George Firican, Director, Data Governance & Business Intelligence, The University of British Columbia

This session will offer an overview of 3 important tools any organization should be using. In this webinar you will learn what a business glossary, a data dictionary, and a data catalog are, the benefits they bring, and what the relationship between all 3 is

- What is a business glossary
- Intro into data dictionaries and data catalogs
- The benefits of all 3 artifacts
- The relationship between them

15:30 - 15:45 EDT Break

15:45 - 16:45 EDT

Data Governance for Safety Critical AI Development

Mark Roboff, General Manager, Digital Transformation, Aerospace & Defense, DXC Technology

- Sharing data securely and with proper ownership control at an ecosystem level is critical. New technology enables this.
- Complex AI systems will leverage this ecosystem data, and will require complex data management techniques.
- For safety critical use-cases, solving for “data assurance” is critical. It is central to how we will verify and validate AI.
- The top question in demonstrating “data assurance” is: how do we know the data you have is sufficiently representative of the environment you are trying to model?
- Government’s role in safety certification based on a “data assurance” architecture is central for providing a means for society to trust AI.

16:45 EDT

Closing Remarks from the Chairs

Graham Smith, Founder, Chief Data Strategist, DataGovernix Ltd.

Alex Fourie, Data Governance Analyst, DataGovernix Ltd.
