Internal Controls

- Learn how to assess the effectiveness of your internal controls
- Improve risk management by aligning your risk and control frameworks: leverage your controls to achieve strategic business objectives
- Explore control considerations to mitigate cyber risk and best practices for mounting your cyber defence
- Learn how to align people, process, policies and technology
- Analyze the growing role of artificial intelligence, robotics process automation, machine learning, and how emerging technologies are transforming internal controls processes
- Get strategies that you can use to develop a process for the safe disclosure and reporting of fraud, theft, misappropriation of funds, or other wrongdoing

Writing a Great MD&A

- Identify key disclosures that satisfy the principal objectives of MD&A
- Comprehensive overview of the requirements and rules for key sections of MD&A - results of operations, liquidity and capital resources
- Learn to enhance the content of MD&A (materiality, analysis, key performance measures and known material trends and uncertainties)
- Improve the effectiveness of regulator and client comments on MD&A
- Get tools and techniques to improve the discussion of operating segments
- Learn to provide the underlying reasons for significant variances strategically
- Enhance your understand of supplementary financial measures reporting: non-IFRS measures and additional GAAP measures
- Ensure your MD&A meets the five key elements of the disclosure framework
- Understand the criteria for determining suitability of forward-looking information
