The Agile Procurement Process

Syed Hasan, Innovation and Agile Procurement, Public Services and Procurement Canada

Jonathan Vinet, A/Senior Director, Innovation Procurement Directorate

In the traditional tendering process bidders provide a detailed outline of the solution the client asks for. Agile procurement, on the other hand, is “challenge-based procurement,” where government describes the problem it wishes to have solved and invites bidders to provide solutions. Find out about this new approach including:

- Giving the problem to the marketplace
- What the RFP looks like
- Possible glitches
- What has worked and what has not
- Evaluating proposed solutions
- Working with government

14:45 - 15:30 EST

Agile Risk Management

Christopher MacDonald, Chief Audit and Evaluation Executive, Public Service Commission of Canada

Sheri Ostridge, Chief Audit Executive, Employment and Social Development Canada

Organizations can no longer rely on traditional static and snapshot-like risk management and reporting, and must, therefore, be nimble enough to continuously anticipate, read, and respond as risks arise. The high level of ambiguity, uncertainty and a wide range of possible futures also hinder the ability to deal confidently with traditional risk models.

- How do we adequately engage senior management committees?
- What questions should you be ready to answer
- Has management identified and evaluated the highest disruptive risks to the organization?
- Are risk management mechanisms fluid enough to continuously identify and respond to disruptive risks?
